

XF80MAX GENERATOR MOISTURE CONTROL

High-performance Cellular Design
Controls Moisture Entry While
Providing Unrestricted Airflow.

Advantages of the XF80MAX

- Eliminate rain hoods and fixed louvers
- Smaller mounting pad reducing construction cost
- Cost effective moisture removal
- Reduce air flow efficiency losses
- Extend life of insulation material by keeping it dry
- Lower cost of labor during manufacture
- Lower warranty costs
- Improved product reliability
- Minimizes dust and debris entry through fixed louvers
